FOR IMMEDIATE RELEASE

St. Philip Catholic Central High School Named to the College Board AP School Honor Roll

Battle Creek, MI — St. Philip Catholic Central High School is proud to announce that it has been named to the **College Board AP School Honor Roll**, a national recognition celebrating schools that provide students with access to college-level coursework and support strong performance on Advanced Placement (AP) Exams. St. Philip is the only local high school to receive this distinction.

This achievement reflects St. Philip's commitment to academic excellence, college and career readiness, and expanding opportunities for students to challenge themselves through rigorous AP coursework.

"We are incredibly proud of our students and teachers for earning this distinction," said Principal Mrs. Dani Cook. "Being recognized on the AP School Honor Roll affirms the strong academic culture at St. Philip and our dedication to preparing students for success beyond high school. Our staff works tirelessly to ensure that every student is supported, encouraged, and equipped to take on advanced learning."

The AP School Honor Roll acknowledges schools that meet specific criteria related to AP participation, performance, and equity. Schools are recognized for ensuring that students not only enroll in AP courses, but also succeed in them—earning college credit, strengthening academic skills, and building confidence for future studies.

As part of the Battle Creek Area Catholic Schools (BCACS), St. Philip integrates rigorous academics with a faith-centered environment, fostering growth of the mind, heart, and soul. Offering AP coursework is one of many ways the school helps students grow into purpose-driven leaders prepared for the challenges of college and beyond.

"We are grateful for the dedication of our teachers and the determination of our students," said St. Philip Pastor, Father James Richardson. "This honor demonstrates the strength of our academic programs and our shared mission of forming well-prepared, faith-filled young adults."
